CSE360 User Guide Outline

Worth 6% of your semester grade

Below is the expected content for your user guide.  If you wish to add additional content/sections, feel free.

You will be graded on format, content, presentation, writing and professionalism.

Submission: Turn in your guide as a single .pdf file using the link on Blackboard.  There will be a common grade for all members of the team on this assignment.

Page 1 : Cover Page (Note – if you don't know how to format a cover page, look it up)
- Title of document
- Class
- Semester
- Team members in alphabetical order by last name

Page 2 : Table of Contents including section names and page numbers  (Note – all pages must be numbered from this point)

Page 3+ : (Note this will be several pages to adequately cover the material)

- Introduction – description of the <u>document</u>
- Overview of the <u>program</u>
- Installation
- Getting started
- User interface overview
    - Starting view with screen shot*
    - Examples of the different options with screen shots*
- Example runs
    - Successful execution examples
    - Examples of error conditions and error messages
- Restarting
- Ending the program

* Note – screen shots can be mock ups at this point.
